Gov. Cooper, please do not allow the unnecessary and unwanted Atlantic Coast Pipeline to proceed in our state. Everyone in NC knows this is a pork project for Duke Energy and Dominion. It only serves to fill their coffers at the expense of North Carolinians and our environment. We elected you to office to get the Duke Energy puppet McCrory out. We elected you so decisions for North Carolina would be made with intelligence and foresight. We elected you to move our great state forward into the future by employing innovative and environmentally friendly technology to meet our future energy needs. We elected you to be a leader for all of us, to make decisions that make all our lives better, to show the rest of the country that we value people and community over profit for a few. I ask you to oppose this pipeline as vehemently as possible because if you really take a hard look at it, it does not benefit our state, and will end up costing us dearly. Thank you.
